Strategic Planning
Health Park & Industrial Estate
Hamilton Devon.

Dear Sirs,

L.P.
Site Honi_01

I am writing with regard to the proposed building on the above site. I am sure you will have been notified either by letter or meetings the following objections (for which I am ~~not~~ totally in agreement).

- 1) Flooding in the area and surrounding districts
- 2) Traffic build up through Sidmouth Road, Hoversuckle Drive, (via Old Elm Road or Hayne Lane. The roads are far too narrow and differently would ~~and~~ arise for instance on Rubble bin collections etc etc.
- 3) Would the drainage and sewerage systems be able to cope?

- 4) Have we budget
School places to cope
with an increased population.
- 5) We all know in this area how
difficult it is to contact the
Doctors & surgery for help and
and the Pharmacists are
also overloaded with work.
- 6) My main concern is there are a
number of elderly residents on the
Heathfield Estate. It would mean
more traffic on Elm Road and pedestrians
would have to cross to catch a
bus either ~~in~~ to town or to the
shops. I can see accidents happening here.
- 7) already there is parking along ~~Elm~~ Old
Elm Road, perhaps because there is
more than one vehicle per household.
can be dangerous. !!

3) I am ^{also} concerned, that should
a serious incident
occur on the Estate for
instance a fire, would the
services and Police be able to
attend promptly or would they
be hindered by increased traffic?

Please give ~~the~~ serious consideration
to these suggestions.

Thank you.

Yours faithfully
