Subject: proposed development in Exmouth

Categories: Reg.18 consultation

I object strongly to the proposal to build another 258 houses. We already have the Goodmores site where there are far too many

houses without adequate public services. There is a severe shortage of health services, schools; the local secondary school has far too many pupils to function properly. Inadequate sewage and water supply and overcrowded roads.

There is hardly any affordable housing.

I do not understand what makes the council think this is desirable.
