

7-12-22

Dear Sirs,

I wish to object to building on Honey 01

The site is an A.O.N.B, additional surface water could cause flooding to properties that border the site.

Access is a big problem. Sidmouth road is not suitable for extra traffic, and any access point ~~was~~ would be very dangerous as the road has blind bends. Also Honeysockle drive (via Old Elm Rd) nor Hayne lane are suitable.

Sewerage and drainage systems are already full to overflowing on the Heathfield estate. There is no way extra services should be connected up.

Schools and G.P's are already full and cannot cope with ever increasing numbers.

P.T.O

To summarise building on Hori\_01  
is a very bad idea.

yours sincerely

christine Reddaway
