**Categories:** Reg.18 consultation

Dear Sir / Madam

I understand from attending an EDDC meeting in Ottery St Mary recently that the status for development within Plymtree is currently - "Not Recommended".

I would like to endorse this as I feel that further development in the village would have an adverse effect on the look and feel of an historic and rural environment, would compromise road safety and could impact on existing drainage, sewerage and most definitely internet capability.

Plymtree has extremely limited public transport and a community shop that continues to be under threat of closure. Development in Cullompton is much better placed with far more facilities to offer and a better, safer road network.

Yours sincerely

Rosemary Hobday
