To whom it may concern

We strongly object to ALL development north of Exmouth towards Woodbury Common & Lypstone.

Have you not heard of Climate Change & Global Warning? Our green field sites should be sacrosanct to preserve the trees, wildlife and other natural resources on which our existence on this planet relies.

Please look harder at developing the brown field sites within the existing town boundary.

Finally, as a Council I trust you will ensure that the infrastructure (roads, schools, hospitals etc) can support the level of local development.

Alan & Julie Sinden
