Customer enquiry: Dear Council,

I am writing to register my objections to the following developments:

1. 23 homes at land north of Oak Road, Metcombe, Ottery St Mary.
2. Land north of A3052 near Crealy Adventure Park.
3. Expansion of Cranbrook, 1035 homes north of Treasbeare Farm, to include travellers' site.
4. Land off A30 Exeter Science Park - 44 new homes, Blackhorse Hamlet.

Why do you have to keep destroying our green areas with all this housebuilding? Areas in and around Devon are already intolerable in terms of traffic congestion and strain on services, such as GP surgeries, schools and dentists. I cannot believe the willingness of local councils to bow down to the greedy developers who do not have to live with the impact of the concrete jungles that they create.

My biggest concern is the loss of green land and areas for nature and wildlife to thrive. Everything from insects, such as beetles and pollinators to birds and mammals, are losing habitat to the human need to build on everything. Devon will soon no longer be the attractive place it once was, and the reason most people want to live here will disappear, thanks to all the ugly newbuild estates that are popping up.

Stop ruining our county and decimating wildlife habitat. Leave our green spaces and wildlife alone!

Sincerely,

Mrs K Dolezel
