Dear Sirs,

I am write in respect of new plans to develop further housing in Lympstone and its surrounding area. I have lived in Lympstone for over 10 years.

These plans are repugnant, and will do great harm to the village. They are not sustainable. I do not dismiss the necessity for affordable housing, but Lympstone is simply not the place to build it; particularly when there are so many avenues to build in Exmouth, Exeter, Sidmouth and so on.

For what it's worth, I am a Conservative Party voter, and have previously stood for them in local elections in Scotland. I will never vote for the Conservative Party again if these plans go ahead.

I repeat - these plans are repugnant and unsustainable.

Kind regards,

Nestor Carlsen - Devereux
